// BIO

With a background in percussion and Pakistani music, faizan loves nothing more than dropping a Qawwali remix at the club in between face-melting bangers. His sets move between South Asian sounds, modern UKG, and bass, built for high-energy rooms and dancefloor moments that catch people off guard.

He has been performing in New York since 2022, with sets at Elsewhere, Unveiled, and Eris Evolution. His remixes have been featured on The Lot Radio and BBC Asian Network.
